Life Skills Training prepares dogs to be family and community members. We believe that raising and training dogs consists of teaching life skills.

Dogs trained to off leash capability attain a level of skill and relationship for a pleasurable lifetime. We teach life skills your dog needs to learn to rest quietly under a desk at work, chew a bone under the table at a sidewalk cafe or restaurant, or help cheer on the kids at games. Each dog's role as family and community member differs according to the lifestyle of his people. Dogs fit into most situations when given adequate guidance about what is expected.

Teaching puppies and providing you the necessary skills to raise a well rounded, confident pup is our particular focus.

Private Life Skills Lessons

Our initial meeting in our office or your home lasts about 1 1/2 hours. It includes telephone and email support, and is followed by one or more lessons spaced at appropriate intervals and locations, directed toward attaining a level of training so your dog can be both family and community member.

Life Skills Lessons *Just for Fido.*

While you are at work or otherwise engaged, we show Fido the ropes to live successfully as both family and community member. Your dog is prepared to listen to you when you reinforce needed lessons.

Outward Bound Hound

We and a small group of dogs take to the trails or the beach. Dogs come when called, socialize, play, blow off steam, and return to you relaxed and prepared to listen to you when you reinforce needed lessons.

Overnight Custom Care

Your home or ours Dogs play, swim, hike off leash, and enjoy contact with family, friends, and people we meet in town while we work on Life Skills and run errands. Dogs who do best with us are friendly with dogs, cats, and people, can rest quietly, enjoy snuggles, toy time, and the comforts of home.

Daily Custom Care

While you are away, at work, or otherwise engaged, we walk dogs, visit and play with dogs, administer medications your dog needs, and more.
